Cantor Fitzgerald Europe

Electronic Trading Terms

These Electronic Trading Terms are supplemental to and form part of CFE's Terms & Conditions for CFDs and set out the basis upon which Cantor Fitzgerald Europe ("CFE") will enter into contracts for difference ("CFDs") via the Electronic Trading Platform.

1. Interpretation

1.1 In these Electronic Trading Terms

- a. unless the context otherwise requires, the expressions set out in CFE's Terms & Conditions shall have the same meanings when used herein; and
- b. the following words shall have the following meanings
 - i. "Electronic Trading Platform" means any online electronic trading platform (inclusive of the market data) made available by CFE to the Client under these Electronic Trading Terms

2. The Electronic Trading Platform

- 2.1 CFE will use its reasonable endeavours to provide in accordance with these Electronic Trading Terms the Electronic Trading Platform to the Client for use by the Client to enter into CFDs with CFE.
- 2.2 The Electronic Trading Platform will provide the Client with on-line, real-time access to trade CFDs.
- 2.3 All trades executed on the Electronic Trading Platform will utilise live price feeds from the underlying exchanges. In the event of communications failure or other related problems that prohibit the normal execution of CFDs using the Electronic Trading Platform, then CFE will receive trade execution instructions via telephone in accordance with CFE's Terms and Conditions.
- 2.4 CFE may from time to time change the configuration, technical functionality and/or performance of the Electronic Trading Platform.
- 2.5 CFE shall not be required to supply or maintain any equipment or communications facilities to the Client in order to use the Electronic Trading Platform.
- 2.6 CFE will not be responsible for any failure of the Electronic Trading Platform if such failure is caused by factors beyond CFE's reasonable control including, but not limited to, telecommunications failure or fault, defective equipment utilised by the Client or incorrect operation by the Client of its own facilities.
- 2.7 The Client acknowledges and agrees that CFE does not guarantee or warrant that the Client will not experience any downtime or disruptions in its use of the Electronic Trading Platform. CFE may restrict, suspend, or terminate the Client's access to and use of the Electronic Trading Platform at any time, without notice or liability. CFE may at any time impose or revise limits on the size, volume, and types of Orders the Client may submit through the Electronic Trading Platform, without notice or liability. No course of dealing shall be construed as a promise or guarantee of continued availability of the Electronic Trading Platform on the same or similar terms.
- 2.8 The Client understands that its right to use the Electronic Trading Platform is non-exclusive, revocable, non-transferable, and that the Client does not have the right to sub-license.

3. Conditions of Use of the Electronic Trading Platform

- 3.1 The Client shall not permit the Electronic Trading Platform to be used for any illegal purpose.
- 3.2 The Client shall not reproduce or re-transmit, or permit any third party to reproduce or retransmit, any information or content made available through the Electronic Trading Platform without CFE's prior written consent.
- 3.3 The Client shall use the Electronic Trading Platform in a manner that is
 - a. consistent with the CFE's Terms & Conditions and these Electronic Trading Terms, and
 - b. in accordance with all applicable regulations.
- 3.4 If the Client's use of the Electronic Trading Platform interferes with CFE's ability to provide the Electronic Trading Platform to the Client or any third parties CFE may suspend provision of the Electronic Trading Platform to the Client until such use is remedied.
- 3.5 The Client understands that the Client will be permitted to access the Electronic Trading Platform through a user identification ("Access ID"), which may include unique codes, passwords, and other security or authentication mechanisms. The Client agrees that the Client may not share the Access ID with other parties without the express written consent of CFE, and the Client further agrees not to alter, disable, or circumvent the Access IDs or permit any other person to do so.
- 3.6 The Client has the sole responsibility and shall be liable for the security and safekeeping of Access IDs issued to the Client. Accordingly, the Client shall remain fully responsible and liable for any Orders notwithstanding any typographical or keystroke errors made when such Orders were placed with CFE, and transactions entered into, through the use of the Electronic Trading Platform. The Client acknowledges that there are risks associated (such risks may include the risk of misuse and unauthorized use of the Client's Access ID by a third party, hacking of accounts, and other forms of cyber theft and crimes to which the Electronic Trading Platform may be vulnerable) with placing Orders and effecting trades through the use of the Electronic Trading Platform.

4. Access

- 4.1 The Client shall allow CFE (and its authorized representatives) to remove or prevent, and shall assist CFE (and its authorized representatives) in the removal or prevention of, access to any information or content that causes (or is likely to cause) the Client to be in breach of CFE's Terms & Conditions or these Electronic Trading Terms or any other terms applicable to the use of the Electronic Trading Platform, irrespective of whether or not such removal or prevention of access involves impairment of the Electronic Trading Platform.
- 4.2 CFE shall have the right to require the Client temporarily to cease using or may temporarily suspend the Electronic Trading Platform as a result of a breach or suspected breach of CFE's Terms and Conditions or these Electronic Trading Terms or any other terms applicable to the use of the Electronic Trading Platform until the breach has been remedied.

5. Electronic Trading Platform Use Restrictions

- 5.1 The Client shall
 - a. not copy or permit any third party to copy in whole or in part any software provided as part of the Electronic Trading Platform other than any temporary copies of such software made on the Client's equipment in the course of using the Electronic Trading Platform,
 - b. notify CFE immediately on becoming aware of any malfunction or error in the Electronic Trading Platform,

- c. not nor permit any third party to:
 - i. reverse-engineer, disassemble or decompile any software provided as part of the Electronic Trading Platform;
 - ii. remove, change or obscure any product identification or notices of proprietary rights and restrictions on or in any software provided as part of the Electronic Trading Platform; or
 - iii. offer to sell, lease, hire, charge or otherwise encumber (or agree to do so) any software provided as part of the Electronic Trading Platform.
- d. take all appropriate measures to mitigate any loss or damage to the Client that may be caused by a potential loss of data.
- e. not permit any persons to have access to the Electronic Trading Platform. The Client agrees to notify CFE promptly of any loss, theft or disclosure (suspected or otherwise) of the Client's Access ID, or if the Client believes the confidentiality of such Access ID has been compromised, or of any actual or threatened unauthorised use of the Electronic Trading Platform.

6. Trades and instructions

- 6.1 From time to time the Client may give Orders via the Electronic Trading Platform
- 6.2 Prices quoted on the Platform ("On-screen Prices") are indicative only and are subject to confirmation by CFE. CFE will exercise due care and skill in the preparation and presentation of On-screen Prices but due to the nature and speed of movements in the underlying markets, the prices indicated may not necessarily be the prices at which Clients will be able to open or close a CFD. CFE will not be liable for any losses or costs which the Client incurs as a result of not being able to open or close a CFD at a particular On-screen Price.
- 6.3 If the Client wishes to open or close a CFD via the Platform ("On-line Trading") the Client must complete all obligatory fields in the Order Ticket and submit the Order Ticket by clicking the "buy" or "sell" button (as appropriate) to submit an offer to trade. Once submitted an offer to trade is irrevocable. For the avoidance of doubt, instructions to open or close CFDs or place or amend Orders may not be given via email.
- 6.4 An offer to trade will be accepted and a CFD will be opened or closed when CFE sends the Client an Electronic Confirmation Message. If the Client expects, but has not received, an Electronic Confirmation Message, it is the Client's sole responsibility to make enquiry of CFE to seek clarification of the status of the offer and any resulting trade.
- 6.5 In the event of any dispute the records on CFE's audit reports will be conclusively determinative of whether an Electronic Confirmation Message was in fact sent to the Client.
- 6.6 If the Client sends communications applicable to On-line Trading which are received outside the dealing hours of the Stock Exchange or other market on which the Contract Security is traded or to which it relates on any Business Day those instructions will not be processed.

7. Charges

- 7.1 CFE shall be entitled to deduct from the Client's Account the applicable market data charges or royalties for those markets requested by the Client resulting from the provision of the Electronic Trading Platform.

8. Reliance on Information

- 8.1 The Client acknowledges and accepts that the Electronic Trading Platform cannot be

operated in all circumstances entirely without error (including errors in any software provided as part of the Electronic Trading Platform) and CFE shall not be liable for any loss or damage arising from any such error in the Electronic Trading Platform or the reliance by the Client upon the Electronic Trading Platform.

9. Disclaimer of Representations and Warranties and Liability

- 9.1. The Electronic Trading Platform is provided to the Client "as is." CFE makes no representation or warranty, express or implied, with respect to the Electronic Trading Platform, or any feature or component thereof, including, without limitation, warranties of fitness for a particular use, purpose, title, merchantability, or non-infringement, or that the Electronic Trading Platform will operate without interruption or be complete, timely, and error free as to the accuracy of the Orders, and CFE and its licensors hereby disclaim all such representations and warranties.
- 9.2. Adverse results of using Electronic Trading Platform, which could be the result of hardware, software or communication link inadequacies or other causes, could involve, for example, failures, delays, malfunction, software erosion or permanent hardware damage to your own computer equipment. Such results could lead to possible economic and/or data loss.
- 9.3. The Client is responsible for ensuring that its computer equipment is compatible with the Platform.
- 9.4. There are risks inherent in electronic communications such that they may not be secure and may be intercepted by unauthorized parties or may fail to reach their intended recipient promptly or at all.
- 9.5. CFE will not be liable in respect of any loss (including loss of profit or revenue), cost or damage including, without limitation, consequential, unforeseeable, special or indirect damages or expense which the Client might incur as a result of or arising out of either accessing and using or being unable to access and use the Platform.
- 9.6. CFE will not be liable in respect of the sequence, timeliness, accuracy or completeness of any On-Screen Prices.

10. Indemnity

- 10.1. The Client will indemnify CFE against all costs, claims, losses, liabilities and expenses assessed against or incurred by CFE arising out of or in connection with: (i) the Client's access or use of, or inability to access, the Electronic Trading Platform; (ii) the Client's negligence or breach of these Electronic Trading Terms; or (iii) the Client's violation of any applicable regulation in connection with its use of the Electronic Trading Platform.

11. Intellectual Property Rights

- 11.1. All right, title and interest to the intellectual property rights which subsist (or arise) in the Electronic Trading Platform and/or in any software provided as part of the Electronic Trading Platform, shall remain the exclusive property of, or be vested exclusively in, CFE and its suppliers.

12. Termination

- 12.1. These Electronic Trading Terms may be terminated at any time by either party on written notice to that effect.
- 12.2. These Electronic Trading Terms will terminate automatically on termination of CFE's Terms & Conditions.

KNOWLEDGE AND UNDERSTANDING (First Authorised Trader)

Please confirm that you have read and understood the below statements: Yes ☒ No ☐

A CFD is a leveraged product and you are only required to deposit a percentage of the full value of the transaction ("margin").

A CFD is valued against the underlying asset to which the CFD is referenced (for example an individual share or index). A CFD can be volatile and a small change to the price of the underlying asset may result in a disproportionately large profit or loss on the CFD.

You can incur losses significantly greater than the amount ("margin") you are initially required to deposit to open a CFD, and should this occur you are required to cover these losses.

If you open a long position (you expect the price of the underlying asset to rise) you will incur a loss if the price falls. If you open a short position (you expect the price of the underlying asset to fall) you will incur a loss if the price rises.

Subject: Bering Explorer Fund
As discussed

- This client is being introduced by 7QFS, one of the owners of this company is a Jason Xenophonotos whom I worked with at MF Global for over eight years and I've known him for close to a decade. Jason left MF Global in Feb 2011 to set up this new IB, whilst at MF Global he serviced Bering and continued to be an IB for this fund until MF entered special administration. In my experience of dealing with Jason Xenophonotos I have never known of any adverse reason not to conduct business with him.
- Bering Explorer Fund is a vehicle whose purpose is to achieve capital appreciation for the beneficiaries, the portfolio manger is a Maxim Zakharchenko. I know of him also as the portfolio manager of the Bering Explorer Fund at MF Global, he was also previously a fund manager of a different client who traded CFDs with MF Global between the years 2003-2006. At all times I have not been aware of any adverse factors regarding Maxim as a fit and proper counterparty to conduct business with. I have met Maxim personally also.

Additional comments/information regarding the client and business case as to why the client should/should not be granted an account.

The Settlor: PROFILE**DMITRI CHIRAKADZE**

Dmitri Chirakadze was the vice president of MIKOM (Metals Investment Company) and an associate of Mikhail Zhivilo. Shortly before Zhivilo left Russia for the UK a scandal involving MIKOM and NKAZ erupted. Negotiations were conducted between MIKOM and Oleg Deripaska the major shareholder of NKAZ. The talks focused mainly on the division of power and profits, Zhivilo wanted MIKOM to run NKAZ and profits to be distributed according to shareholdings. Deripaska disagreed with such an arrangement.

Unexpectedly, MIKOM lost control of NKAZ, the plant was declared bankrupt and ownership was transferred to the management of Sibirski Aluminium and then Russian Aluminium (RusAl). NKAZ is currently a part of UC RusAl and has increased its production capacity by 10% Ref: Metalinfo.ru.

RUSAL is the world's largest aluminium producer and one of the world's major producers of alumina.

No adverse information can directly be attributed to Dmitri Chirakadze, as part of the CDD review.
